

Funeral Flowers

Price List

Beautiful, seasonal and natural funeral flowers made with love. Environmentally friendly and designed with you to reflect your loved one's life and personality

About me:

Hello my name is Nicola, I am a flower farmer florist, I grow the cut flowers and foliage I use, so it is all seasonal and locally grown where possible. All of the tributes are made with sustainable floristry techniques, no floral foam or plastics. They are fully compostable and suitable for natural burial grounds.

How I work:

Every option can be adapted to your requirements and I am happy to create something unique just for you. My style is delicate and natural. Starting with a conversation about your loved one, tell me about their life and the things they loved and together we will create the perfect tribute.

"Just to say a massive thank you for the wonderful flowers you made so beautifully for my Mum's funeral. They were stunning and Mum would have loved them. Everybody commented on them after the service, so they had the impact I was hoping for. Thank you also for being so kind and caring at such a difficult time. "

I can also make open heart wreaths, garlands, posies and swags, please ask for a price. I am also happy to work on a bespoke design, maybe your loved one had allotment and you would like to use vegetables instead of flowers, maybe they had a hat they always wore that you would like to be incorporated. All of the tributes I make are individual and made to reflect the person's life and loves. Its important to me that I get it right and give you a better choice that selecting something from a catalogue.
