

Wedding Flowers Price Guide

Below is a guide on prices for wedding flowers. They are all flexible depending on what you are looking for, where the venue is and what you want me to do. I grow the flowers myself and your wedding flowers will be created from the best available blooms at the time. I can't guarantee varieties but they will be beautiful and sustainable and I will work with an agreed colour scheme. I love designing and am always happy to create something new or unique. If you are interested in exploring this further I would suggest a free consultation where we can discuss the options and then I can provide you with a tailored quote.

- wedding bouquet from £120
- attendant's bouquet from £60
- child attendant's bouquet from £40
